
100ah power station for sale in Vancouver

What is a portable power station?

A portable power station, sometimes called a portable electricity generator or power portable station, is a rechargeable battery-powered device that supplies power through multiple output ports such as AC, USB, and 12V DC. Unlike traditional fuel generators, these are quiet, fume-free, and easy to transport.

What is a 12V 100Ah lithium battery?

12V 100Ah lithium battery designed in Canada for RVs, marine, solar, and other deep cycle applications. Built with advanced LiFePO4 Grade A prismatic cells and a rugged design, offering 3,500 to 5,000 cycles. Serves as a drop-in replacement for Group 27 and 31 batteries. Lightweight at just over 26 pounds for 100Ah of usable power.

What is a CANBAT 12V 100Ah LiFePO4 battery?

The Canbat 12V 100Ah LiFePO4 battery has a 100% useable capacity and can be fully discharged and recharged thousands of times. Weighing just over 26 pounds, it's the perfect lithium battery for marine applications and those seeking to reduce the weight of their RV or solar energy setups without compromising power.

What is a CANBAT 12V 100Ah lithium iron phosphate battery?

Canbat 12V 100Ah Lithium Iron Phosphate batteries (LiFePO4) are designed to outperform other batteries in various recreational, residential, and commercial power applications. These include recreational vehicles (RV), electric wheelchairs, solar energy, sailboats/marine, floor machines, power equipment, and much more.
