## 20-foot Somaliland folding container for mountainous areas

What is a 20ft foldable container?

The 20ft foldable container is a brand-new temporary building with a simple and elegant appearance design and a steel frame, which is full of modern fashion sense. It not only provides a multi-functional space but also can be folded and transported on a large scale, which saves transportation costs as well as reduces storage space.

What is a 20 foot container?

The 20 foot container is one of the most popular container types. Its size makes it particularly versatile. It is suitable for a wide range of loads, can be used as a mobile storage or sanitary solution or as an accommodation cabin. Standardisation makes it easy to transfer between different modes of transport.

How much does a 20ft container weigh?

Depending on the type of container, a 20ft container weighs between 1,270 and 2,350 kg, and the specific weight also depends on the particular design and specification. Here are the specific details for the different and most popular cabin/container types:

Can I buy or lease a 20-foot cabin or container?

Depending on your requirements, you can buy, lease or rent 20-foot cabins and containers from CONTAINEX. If you have any questions about the best option for you, please contact us - use our contact form or request a callback.
