
65w solar bottom suction water pump

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks--without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

Does a poly solar panel kit have a submersible well pump?

The Poly Solar Panel Kit has a 12 V submersible well pump. It's ideal for bigger applications, such as farms, irrigation or camping sites. The pump benefits from the highest engineering design, since it can be submersed up until 30 meters underwater without any problem.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

Product name: Bottom Suction Water Pumps; Rate Power: 65W. Warranty 1 year; H Max. (M): 3.2m; Q Max (L/H): 3200L/H, 846GPH; Impeller: Durable POM Opened Impeller, Easy for ...
