## 6k uninterruptible power supply power

How do I choose an uninterruptible power supply?

To select the right uninterruptible power supply (UPS), calculate the average power required for all connected appliances. For instance, a 350-500 VA capacity is suitable for an LCD monitor or a regular PC.

What is 6000 W intelligent power supply?

The uninterruptible power supply on-line, 6000 W Intelligent series, without battery, is made according to the scheme with double conversion (on-line). It provides a load with a stabilized sinusoidal voltage and is designed to provide an uninterrupted power supply: for servers, telecommunication, network, and industrial equipment.

What is a 6kva 230 volt ups?

This 6kVA/6kW online double conversion UPS offers continuous power conditioning in centralized and edge locations. With unity power factor (1.0), it allows more connected loads saving space and costs. This 230V in/ 230 out single phase UPS has scalable runtime options with matching external battery cabinets to give extra runtime during an outage.
