## After-sales service for 200kW off-grid solar container in Nairobi

What is an off grid solar power system?

On Grid Solar Power System Off grid solar power system doesn't connect to the power grid. In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances working through the inverter.

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks.

Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How long does it take to install a solar panel container?

Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding solar panel inside the container can be unfolded or stowed in as little as 1h ( the time does not vary for different photovoltaic containers ).
