
Algeria Industrial Energy Storage Cabinet Cooperation Model

Is the times-DZA model applicable to Algeria's power and gas system?

Chabouni N (2022) Long-term energy prospective modeling: development and application of the TIMES-DZA model to Algeria's power and gas system for the horizon 2070. Economie et statistique Appliquée, ENSSEA (Thesis), Algeria

What is Algeria's economic model?

Part of the book series: Lecture Notes in Energy (LNEN, volume 101)) Algeria belongs to a set of nations with a model of socio-economic development that has created a high dependence on hydrocarbon exports, leaving them vulnerable to fluctuations in international market prices.

Should Algeria diversify its energy mix?

With 80% of Algeria's industrial energy mix relying on subsidized natural gas supply (Ouki 2019), the need to diversify the energy mix with REs becomes evident, playing a crucial role in shaping the country's economic future.

Why is Algeria not aligning with SDG 13?

Enforcing Algeria's policy targets on renewable and hydrogen leads to a more diversified energy supply, aligning with SDG 7, but without reducing sufficiently the greenhouse gas emissions, thus not fully aligning with SDG 13.
