
Argentina Large Energy Storage Power Station Construction Project

How many MW of battery energy storage in Argentina?

Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW target by about 30%. Energy storage battery. Photo by Anna Vasileva

Can battery energy storage modernize the grid in Argentina?

The... Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

How many projects did the Argentinian government submit?

15 companies submitted 27 projects, pledging over \$1 billion in investment for a total that far exceeded the tender's 500 MW target. The Argentinian government opened the bids this week for its AlmaGBA tender process.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.
