What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains.

COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

What are plastic collapsible containers?

As part of our Plastic Storage Containers, our Plastic Collapsible Containers are a great way to organise your materials and transport goods, saving space when not in use with their "fold-down" functionality.

Backsafe is Australia's leading supplier of Plastic Collapsible Containers for businesses.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.
