
BESS energy storage generator in Antwerp Belgium

Is ENGIE generating a Bess project in Belgium?

ENGIE is also generating two other BESS projects in Belgium which already have credentials in place, a 100-MW/400-MWh scheme in Kallo and an 80-MW/320-MWh battery in Drogenbos. The firm targets 10 GW of battery capability globally by 2030. At the end of 2023, it contained 1.3 GW of battery capacity in function and 3.6 GW secured under development.

What is ENGIE's Vilvoorde Bess project?

ENGIE has started building one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde place in Belgium. The project, authorised in July 2023 and selected for power remuneration in October 2023, has an inaugurated capacity of 200 MW on a 3.5-hectare site. What are the specifications of ENGIE's Vilvoorde BESS project?

What is BSTOR & Energy Solutions Group doing in Belgium?

BSTOR and Energy Solutions Group have started building BESS projects totalling 440 MWh of capacity in Belgium, using Tesla Megapacks.

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440 MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

ENGIE has started building one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde place in Belgium. The ...

NHOA Energy will deliver an 80 MW/320 MWh NHEXUS battery system at ENGIE's Drogenbos station near Brussels under a 15-year contract. The 88-container, four-hour BESS ...

Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440 MWh of capacity in Belgium, following financial close, ...

NHOA Energy, which developed this project in Taiwan, will deliver the 100 MW/400 MWh system. | Image: NHOA Energy French state-backed utility Engie has broken ...

The 25 MW, 75 MWh battery project at Antwerp refinery will stabilize the grid, support renewable energy integration, and enhance TotalEnergies' presence in Belgium's ...

BSTOR and Energy Solutions Group have started building BESS projects totalling 440 MWh of capacity in Belgium, using Tesla Megapacks.

ENGIE has begun the construction of one of Europe's largest battery energy storage systems (BESS) at its Vilvoorde site in Belgium. This significant milestone follows the project's ...

As of November 22 2025, both phases of the largest battery storage system in Europe have been completed and with the second phase awaiting commissioning.. The company is also building ...
