
Backup power box and uninterruptible power supply

Does Staples offer a battery backup & uninterruptible power supply (UPS)?

Shop Staples" collection of battery backups and uninterruptible power supplies (UPS) to protect your data and technology.

What is an uninterruptible power supply (UPS)?

What is a UPS? An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating power.

What is a backup battery power supply?

This backup battery power supply is designed for use during outages and unsafe voltage fluctuations, and acts as a surge protector with battery backup in the event of damaging power surges and spikes. The APC Back-UPS BE600M1 is the ideal battery backup for computers and routers to keep you and your smart devices connected.

What is a UPS battery backup?

When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power and surge protection for plugged-in, sensitive equipment. APC, our flagship brand, offers UPS options for computers, peripherals, networks, servers, as well as data centres, and facilities. Need help choosing a UPS battery backup?
