## **Bucharest Energy Storage New solar container battery**

Does Romania have a grant program for battery energy storage systems?

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities - wind, solar, or hydro. From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR150 million (\$158 million).

Is battery energy storage a pillar of Romania"s energy transition?

Recent updates about investments in battery energy storage systems (BESS) in Romania indicate the technology is becoming another pillarof the country's energy transition alongside wind power. For several years now,photovoltaics,and prosumers in particular - including municipal authorities,have dominated the scene.

Does Romania offer a subsidy for battery energy storage systems?

From ESS News Romania has launched a new subsidy schemefor behind-the-meter battery energy storage systems to the tune of EUR150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17,2025.

What is Romania's largest battery storage system?

In April,Romania's largest battery storage system,of 24 MWh,was put into operation. It is the first phase of a project totaling 216 MWh. The facility is connected to the Mireasa wind farm of 50 MW,while a 35 MW solar power plant is expected to be added by the end of 2024.
