
Building solar panels on the Mexican island of Monterrey

Is Monterrey a good location for solar power generation?

Monterrey, Nuevo Le#243;n, Mexico (latitude: 25.6554, longitude: -100.3258) is a highly suitable location for solar power generation due to the substantial amount of energy that can be produced from installed solar panels throughout the year.

How many solar panels are in Monterrey?

Part of an \$18 million plant expansion investment, the newly installed solar panel array is the largest project of isolated battery-powered supply in Mexico. In total, close to 10,000 panels have been installed across Monterrey's three plants, with plans to be producing energy in 2024.

Why should you choose a solar panel manufacturer in Mexico?

Mexico's solar energy sector is experiencing rapid growth, driven by rising demand for clean energy and strong government support. As the country continues to embrace renewables, choosing the right solar panel manufacturer in Mexico has never been more crucial--whether you're a developer, distributor, or EPC contractor.

Who makes the best solar panels in Mexico?

Profile: IUSASOL is a leading Mexican manufacturer known for its commitment to local production and affordable solutions. They offer good quality panels with shorter warranties. 10.
