
Canberra South Energy Storage Project

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.

What is the Big Canberra battery project?

Installation is underway on behind-the-meter batteries at nine sites. The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes the installation of: installation of behind-the-meter batteries at nine government sites.

Will a 250 MW / 500 MWh battery energy storage system "future proof" Canberra?

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's energy supply by reducing the load on Canberra's electricity network and increasing network reliability.

Will a big battery power Canberra?

The government said the big battery project will be capable of responding rapidly to network constraints and will be able to store enough renewable energy to power one-third of Canberra for two hours during peak demand periods. The Williamsdale battery will be developed, built and operated by Macquarie Group offshoot Eku Energy.

Researchers at the ANU Centre for Energy Systems (ACES) are contributing their expertise in energy modelling and social research to the recently ...

A 250-megawatt / 500 megawatt-hour battery energy storage system capable of supplying roughly one-third of the Australian Capital Territory's power needs during peak ...

Canadian Solar's e-STORAGE arm secures a 408 MWh battery contract with Vena Energy in South Australia, further increasing its Australian BESS pipeline to nearly 2 GWh. ...

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's ...

With a \$1.5 million investment and support from Evoenergy, Canberra's electricity distribution network service provider, the new project aims to bring energy storage closer to ...

News PR Newswire e-STORAGE to Deliver 408 MWh Battery Energy Storage System for Vena Energy in South Australia

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" ...

Researchers at the ANU Centre for Energy Systems (ACES) are contributing their expertise in energy modelling and social research to the recently announced Battery Energy Storage ...

[Australia; 8 December 2025] - Vena Energy, the renewable energy arm of Vena Group and a major green energy solutions provider across the Asia-Pacific region, has commenced ...

e-STORAGE to Deliver 408 MWh Battery Energy Storage System for Vena Energy in South Australia
Canadian Solar Inc. Dec 17, 2025, 07:00 ET

Overview The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery ...

KITCHENER, Ontario - Canadian Solar Inc. (NASDAQ:CSIQ) announced Wednesday that its subsidiary e-STORAGE will provide a 204 MW/408 MWh AC battery ...

With a \$1.5 million investment and support from Evoenergy, Canberra's electricity distribution network service provider, the new ...
