
Cost of Waterproof Folding Containers Used at Australian Airports

Why are shipping containers so expensive?

Shipping container prices can vary depending on several key factors: Size & Type - 40ft and High Cubes cost more than standard 20ft units. Condition - New (one-trip) containers are more expensive than used or refurbished. Delivery Location - Remote or regional delivery may incur higher transport costs.

How much does it cost to reposition an intermodal shipping container?

The intermodal shipping container is 70 years old. Over the years it has been refined but ownership costs have increased. For example, this year, the annual operating prices have ranged between \$25,000 to \$40,000 to reposition an empty container.

How much does a 20 ft container cost?

A 20ft container in pristine condition may be priced between \$3,000 and \$5,000, while a 40ft container could range from \$5,500 to \$8,000. Pre-owned containers offer a considerable cost advantage, with prices ranging from \$1,500 for a standard 10ft model to approximately \$3,500 for a larger or better-condition 40ft container.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.
