
Customized 10kW Solar Container in the USA

How much does a 10kW Solar System cost?

What's the cost of a 10kW solar system? The national average cost for a residential solar energy system in the United States ranges between \$16,870 and \$23,170 after federal tax incentives - not including installation. However, a DIY solar installation is a great way to save nearly half of your total solar costs.

What is a 10 kW solar system?

These 10 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.
