
Double glass module carport

What is a double carport?

Double carports are the perfect choice for homeowners with two vehicles, and a popular alternative to building a carport shed in the backyard. Keeping your vehicles off the street can also help you save money on costly repair bills for wear and tear, hail damage, and theft.

What are the dimensions of a double metal carport?

Double Carport Size: The width of a double metal carport typically ranges from 18 to 24 feet. The size of your double carport is also affected by the number of vehicles you need to accommodate. Different double carport sizes have different price tags.

Why should you choose a solar carport?

Our solar carport solutions not only provide "green" energy for charging electric or hybrid cars but also for feeding in supplemental electricity into power circuits or to charge even entire company fleets. The semi-transparent solar modules made of high-performance solar cells ensure for an optimum solar yield on the surface available.
