# Double-glass solar modules in Zurich Switzerland

Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards. As an internationally recognized premium brand.

How to install glass-glass solar modules?

Glass-glass solar modules can be installed both with or without frames. The mounting systems FAST, MATCH, LEVEL, NICER, LOCKUP, LOCKIN, LAYUP and LAYIN are especially suitable for the integration of glass-glass solar modules. Particularly anti-glare surface structures are used. Megasol Cell technologies: Mono HiR / Mono HiR RearCon

Why should you choose Swiss Solar AG?

The state of the art design of solar the packaging and solar modules makes the product emotionally attractive to the most demanding customers. Stylish packaging sets the product apart from other producers. To be part of SWISS SOLAR AG is to always be ahead.

Why should you choose glass-glass solar panels?

Free design scope, high durability and stability characterise this solar building material. All glass-glass modules can be designed freely. Glass-glass modules are manufactured in Deitingen, Switzerland.

Silicon PV Most commercially available PV modules rely on crystalline silicon as the absorber material. These modules have several manufacturing steps that typically occur separately from ...
