Export version of solar modules

Where do solar PV exports come from?

The latest monthly solar PV export data from the world's largest exporter, China, by country or region of destination. Ember China solar export dataset provides the following information: The IEA has stated that China's solar photovoltaic exports account for 80% of the global market.

Which countries export the most PV modules in 2024?

By the end of May 2024, the total export value for the year reached \$13.62 billion, with a cumulative export volume of approximately 97.9 GW. The Netherlands, Brazil, and Saudi Arabiawere the top destinations, each receiving over 1 GW of PV modules in May. Regional Insights Europe remains the largest market for Chinese PV modules.

How many PV modules did China Export in 2023?

Separately,market research firm InfoLink has also released an analysis report based on customs data,which pointed out that from January to December 2024,China exported a total of 235.93GW of PV modules,an increase of 13% compared to 207.99GWin the same period in 2023. How much did PV modules export in May?

The total export value of PV modules in May was \$2.623 billion,down 36.8% year-on-year and 1.33% month-on-month. Based on Infolink's latest export price of \$0.12 per watt,the export volume for May rose to around 21.86 GW,showing a year-on-year increase of over 10%.

Navigate the complexities of solar panel export with our comprehensive guide. Understand the export process, module classification, and key advantages & disadvantages ...

China exported 235.93 GW of PV panels in 2024, a 13% increase over the previous year. Of this, 94.4 GW were shipped to ...

Solar module exports from China increased 13% year-on-year (YoY) in 2024 to 235.93 GW, with the inclusion of around 16.62 GW in December 2024 which was a month-

China exported 235.93 GW of PV modules in 2024, up 13% from 207.99 GW in 2023, according to customs data from PV InfoLink. Global module shipments increased 13% ...

China's total module exports from January to July 2025 reached 148.6 GW, down 2% YoY from 151.48 GW. In July 2025, the top five single-country importers of Chinese ...

In May 2024, China's solar module exports showed a notable trend: higher volumes but lower prices. Data from the General ...

Key Export Markets and Manufacturers for India solar exports The United States continues to be the primary destination for Indian solar modules. In Q3 2025 alone, India ...

The latest monthly solar PV export data from the world's largest exporter, China, by country or region of destination.

Export value of solar PV modules worldwide 2024, by country Export value of solar photovoltaic modules worldwide in 2024, by leading country (in million U.S. dollars)

In May 2024, China's solar module exports showed a notable trend: higher volumes but lower prices. Data from the General Administration of Customs and calculations ...

Solar module exports from China increased 13% year-on-year (YoY) in 2024 to 235.93 GW, with the inclusion of around 16.62 GW in ...

Exports of both PV cells and module from China in 2024 reached new highs, according to recently released customs data.

China exported 235.93 GW of PV panels in 2024, a 13% increase over the previous year. Of this, 94.4 GW were shipped to Europe, down 7% from 2023.
