
Gabon power station generator

Who is responsible for the energy sector in Gabon?

The Ministry of Petroleum and Gas and the Ministry of Energy and Hydraulic Resources share responsibility for the energy sector. SEEG, the national electricity and water service company of Gabon, was under a concession to the French company Veolia from 1997.

Is Gabon a gas-to-power leader?

The Owendo power plant, VAALCO's production expansion and the commissioning of Karpower's floating plants are positioning Gabon as an emerging gas-to-power leader, creating extensive opportunities for investors and service companies to explore at the upcoming Invest in African Energy Forum in Paris.

Can Gabon become a regional energy hub?

As Gabon transitions from oil dependency to cleaner energy, gas-fired power generation will bridge the gap and support the country's shift. Key infrastructure developments, such as the Owendo plant and floating power solutions, position Gabon for long-term energy security and enhance its potential as a regional energy hub.

Will Owendo gas power plant increase Gabon's electricity generation by 50%?

The Owendo gas power plant project, which will commence construction in June, is expected to play a vital role in Gabon's goal of increasing its electricity generation by 50% by 2025.
