## Glass solar Trends in 2025

Will Solar Photovoltaic Glass market grow in 2024?

These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade. By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030.

How big is the solar glass market by 2032?

Based on our research, the global solar glass market is projected to touch USD 21.27 billion by 2032. What CAGR is the solar glass market expected to exhibit by 2032?

What will the glass industry look like in 2025?

The glass industry is poised for significant transformation in 2025. As technology continues to advance and sustainability becomes a global priority, we can expect to see several key trends shaping the industry. Sustainability will continue to be a key driver in the glass industry.

How will solar energy impact the flat glass industry in 2025?

The rise of solar energy installations is set to further propel the flat glass industry in 2025. As the push for sustainable energy solutions intensifies, generating energy from sunlight is gaining momentum.
