What is Vietnam's 2024 Green Hydrogen strategy?

Vietnam's 2024 green hydrogen strategy seeks to align with both the national energy development roadmap and global trends, emphasising the production of green hydrogen from renewable energy sources.

What is Vietnam's Hydrogen strategy?

Accordingly, this marks a significant step in Vietnam's transition to green energy, focusing on new and clean energy sources (including hydrogen). Please find below the highlights and key takeaways of the Hydrogen Strategy.

What is the development orientation of hydrogen field in Vietnam?

The development orientation of the hydrogen field has also been emphasized in the National Energy Master Plan for the period 2021 - 2030, with a vision to 2050 and in the Power Development Planning VIII, it is enough to show the special importance of this field to Vietnam's energy development orientation.

Will Vietnam develop hydrogen energy in 2045?

The development of hydrogen energy was soon directed by the Politburo in Resolution No. 55-NQ/TW dated February 11, 2020 on the strategic orientation of Vietnam's national energy development until 2030, with a vision to 2045.

The goal in the hydrogen energy strategy is to develop Vietnam's hydrogen energy ecosystem based on renewable energy, including production, storage, transportation, ...

Vietnam is the newest Asian country to jump onto the hydrogen bandwagon with the announcement of its national hydrogen development strategy by 2030 in February and ...

Therefore, this article reviews the progress and potential of green H₂ production using solar and wind energy in Vietnam. In addition, the article analyzed the roadmaps and ...

Green Hydrogen Vision Vietnam envisions becoming a leader in green hydrogen energy by leveraging its abundant renewable energy resources and advancing sustainable technologies. ...

Green Hydrogen Vision Vietnam envisions becoming a leader in green hydrogen energy by leveraging its abundant renewable energy resources ...

On February 7, 2024, the Vietnamese government promulgated Decision No. 165/QĐ-TTg on approving Vietnam's Hydrogen Energy Development Strategy through to ...

Hanoi, May 27, 2025 - In a significant step forward for Vietnam's clean energy ambitions, HDF Energy, a global pioneer in hydrogen power solutions, and Southern Power Corporation ...

HDF Energy's Renewable¹⁷⁴; power plants combine solar energy with on-site green hydrogen storage and fuel cells to provide continuous, clean power. Through this ...

HDF Energy specializes in the development and operation of high-capacity Renewable¹⁷⁴; power plants, innovative facilities combining a solar park with substantial on ...

Vietnam has officially adopted a national Hydrogen Energy Strategy as part of its broader commitment to

achieving net-zero carbon emissions by 2050. The strategy, effective from ...

The goal in the hydrogen energy strategy is to develop Vietnam's hydrogen energy ecosystem based on renewable energy, ...

Development goals and orientation In general, the Hydrogen Strategy aims to promote the development of Vietnam's overall hydrogen ecosystem based on renewable ...
