
How much does a solar panel cost in Kosovo

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Who is building a solar park in Kosovo?

A consortium led by Switzerland-based construction company Orllati was selected to build and operate a solar park of up to 105 MW in connection capacity for 30 years including a 15-year contract for difference. The group won the first renewable electricity auction in Kosovo* with a bid of EUR 48.88 per MWh.

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.
