# How much does it cost to have rooftop solar panels in Malaysia

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

Can solar panels save money in Malaysia?

The Malaysian government, through programmes such as Net Energy Metering (NEM) scheme, allows solar panels owners to sell excess energy back to the grid, reducing electricity costs further. Additionally, tax incentives may be available for those who install solar panels, which can significantly reduce the overall cost.

Should you buy a solar panel system in Malaysia?

Solar panels offer a sustainable, long-term solution for reducing electricity bills while contributing to a cleaner environment. Before making the leap, it is important to understand the full cost of owning a solar panel system in Malaysia.

Why is solar power so expensive in Malaysia?

The cost of solar power for businesses in Malaysia may be higher due to larger solar energy requirements. It is important to engage a licensed solar panel installer to ensure the safety of your solar power systems.
