
India Mumbai rooftop solar panel installation

What are rooftop solar power solutions in India?

Rooftop solar power solutions are now rapidly becoming common in India. The residential or commercial solar panel system is installed on the roof of a building to generate solar power. This system captures the sun's energy through solar panels. The solar panels convert it into electricity using 'photovoltaic cells' made of semiconductor material.

How to encourage rooftop solar installation in India?

The Indian government has rolled out several initiatives to encourage rooftop solar installations. The PM Surya Ghar Yojana offers a subsidy of up to 40% on residential solar installations (for systems under 10 kW). For smaller systems (up to 3 kW), subsidies are even higher, covering 40% of the installation cost.

How much does a rooftop solar lighting system cost in India?

The cost of installing a rooftop solar lighting system in India typically ranges between INR 70,000 to INR 85,000 per kW. Subsidies, such as the PM Surya Ghar Yojana, can reduce the cost by up to 40%, making it more affordable. 2.
