
Indonesia Surabaya Industrial and Commercial Energy Storage Investment Project

Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Can Surabaya become an example for other cities?

"Surabaya City Government will receive technical support, planning studies, capacity building, and participation in urban energy networks through this SETI project. With this support, it is hoped that Surabaya can become an example for other cities in carrying out the energy transition towards better sustainability," said Johannes.

Is Surabaya a sustainable city?

Surabaya city officials expressed enthusiasm about being selected for the pioneering project. City Secretary Ikhsan highlighted ongoing sustainable initiatives, such as the energy-efficient City Hall building and the Joyoboyo Intermodal Terminal, which utilizes environmentally friendly materials.

Why was Surabaya chosen as a transition energy model city?

Surabaya was chosen for transition energy model city considering its considerable energy-saving potential, existing green building certification framework, rapidly growing construction sector, and the capacity of local stakeholders to manage energy transition projects.

The Ministry of Energy and Mineral Resources (ESDM) has revealed that Surabaya City, East Java is a pilot area for the Sustainable Energy Transition in Indonesia ...

The Indonesian Ministry of Energy and Mineral Resources (ESDM) has designated Surabaya and Batam as pilot cities for the Sustainable Energy Transition in Indonesia (SETI) program, a ...

Key Findings Indonesia Energy Storage Market Introduction Indonesia Energy Storage Market Size and Forecast Indonesia Energy Storage Market New Product Launch Indonesia Energy Storage Market Recent Product Development and Innovation Indonesia Energy Storage Market Report Will Answer Following Questions Indonesia has over 17,000 islands, with many lacking access to reliable power. BESS can provide reliable and clean energy solutions for these regions. The growing EV market will necessitate a robust battery ecosystem, including storage solutions for grid integration and charging infrastructure. Indonesia's focus on industrial growth creates a demand for reliable power. BESS can offer ... Indonesia has over 17,000 islands, with many lacking access to reliable power. BESS can provide reliable and clean energy solutions for these regions. The growing EV market will necessitate a robust battery ecosystem, including storage solutions for grid integration and charging infrastructure. Indonesia's focus on industrial growth creates a demand for reliable power. BESS can offer backup power, improve power quality, and enable cost savings through peak shaving. The Indonesian government recognizes the importance of energy storage. Policies like the Electric Vehicle Battery (EVB) roadmap and grid-scale storage incentives
