
Kingston Solar PV Tile Brand

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Who makes SunStyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.

Do solar roof tiles have a warranty?

Glass and steel roofing tiles make up solar roof tiles. While the latter is flexible and can be installed on rooftops of any size or shape, the former is strong and offers exposure to the sun, which produces energy. In addition, while solar panels have a 20-year warranty, solar roof tiles have a 25-year warranty.

What are Photovoltaic tiles used for?

Today we will talk about photovoltaic tiles, which absorb solar energy for power generation and are used in rooftop buildings. It's like installing a small power plant in your home. What are the main rooftop structures for which flat PV tiles are used and how do they look on the roof?

Cotton Tile Creations Limited of Kingston, ON provides installation of ceramic and natural stone tile and heritage tile restoration. Free written quotes.

All About Photovoltaic Roof Tiles Photovoltaic roof tiles are solar panels designed to look like and function as conventional roofing materials, such as asphalt shingle or slate, while also ...
