
Large wind power inverter price

What is a wind inverter?

A wind inverter converts DC from your generator or turbine into AC (at 230V 50Hz) as required for conventional appliances and for feeding back into the grid.

What power converters does Hopewind offer?

Hopewind provides 1.0MW~12.0MW and other full power converters for wind power generation with 690V rated voltage and 50Hz/60Hz rated frequency, as well as 3.XMW~30.0MW full power converters for wind power generation with 900V/950V/1140V rated voltage and 50Hz/60Hz rated frequency.

Where can I buy a wind turbine?

At PowerHome online store, we have a wide range of wind turbine models at reasonable prices with quality assurance. Let's work together to contribute to a greener earth and embrace a bright renewable energy future.

What is the global wind power market?

The global wind power market has been growing fast in recent years. The International Energy Agency (IEA) says that more and more wind power is being generated each year, and that it will keep growing in the next few years. In Europe, the United States, and China, wind power is becoming an important part of the energy mix.

Looking for a good deal on wind power inverter? Explore a wide range of the best wind power inverter on AliExpress to find one that suits you! Besides good quality brands, ...
