
London Solar Container 10kW Installment Payment

How much does a 10kW Solar System cost in the UK?

In 2025, the average 10kW solar system cost in the UK is between £12,300 - £15,000. This price includes the supply of the 10kW solar panel equipment, installing and connecting to the electricity supply, and VAT (zero-rated). If you'd like to store a portion of the electricity you generate, you'll have to take the solar battery price into account.

How much VAT do solar panels cost in the UK?

To encourage the uptake of renewable energy and low-carbon systems, the UK Government has introduced a VAT reduction. That means, until March 2027, you will pay 0% VAT for the supply and installation of any domestic solar PV system in the UK. A typical family installing rooftop solar panels will save more than £2,000 on installation.

Can a 10kW solar system save energy?

A 10kW solar system in the UK can generate electricity for large homes or smaller businesses. Large homes can benefit significantly in energy savings from having solar panels. This is because they can help offset the higher energy demands of larger homes compared to smaller ones.
