
Mobile Folding Container Type for Wastewater Treatment Plants

What is containerized mobile wastewater treatment plant?

Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by mounting all the equipment in the factory in standard iso containers or specially produced containers.

What are mobile wastewater treatment and containerized sewage systems?

Mobile wastewater treatment and containerized sewage systems can be used in a very wide range of applications. They can be used for short term, mobile wastewater treatment where portable solutions are needed. But they can also be used for long term, fixed applications. They are specifically suited to applications such as:

How can a containerized wastewater treatment plant be transported?

This means that the containerized wastewater treatment plant can be transported on any vehicle that can be loaded with sea containers. At our factory in Bayreuth, the containerized wastewater treatment plant is pre-assembled, tested and prepared for transport as far as possible. The plant then only needs to be commissioned on site.

What is containerized wastewater treatment?

This is where containerized wastewater treatment is practical. These innovative systems are housed within standard shipping containers, making them: Compact and portable: They require minimal space and can be easily transported wherever needed. A standard 20-foot container can hold a system capable of treating wastewater for dozens of people.

The BIO-CEL M+ was specifically developed to meet the dimensions of containerized high cube containers. Mobile wastewater treatment plants are a flexible way to ...

What is Containerized Wastewater Treatment Plant Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play ...

Package wastewater treatment plants: the compact & mobile containers Package wastewater treatment plants that are designed and built by Idro Group are characterized by being mobile, ...

Package wastewater treatment plants: the compact & mobile containers Package wastewater treatment plants that are designed and built by Idro ...

Containerized, modular, mobile wastewater treatment systems offer a flexible solution for management of sewage from a range of applications. Mobile wastewater treatment ...

Versatility: These containerized systems can effectively treat wastewater with different compositions from different sources ranging from food processing plants to ...

Sometimes a mobile, rapidly available or particularly space-saving solution for wastewater treatment is sought. This is one of our specialties: fast and flexible we can offer on stock a ...

KLARO Container: Mobile wastewater treatment plants in 10-, 20- or 40-foot containers. Ready for immediate use, flexible and cleaning with proven SBR

Containerized, modular, mobile wastewater treatment systems offer a flexible solution for management of

sewage from a range of ...

On wastewater treatment plant projects for medium and small-scale settlements mobile containerized wastewater treatment units are ...

Versatility: These containerized systems can effectively treat wastewater with different compositions from different sources ranging ...

On wastewater treatment plant projects for medium and small-scale settlements mobile containerized wastewater treatment units are used. In projects where discharge ...

Types of Mobile Wastewater Treatment Plants Mobile plants are available in multiple configurations to suit different site conditions and project requirements. 1. ...

How do Containerized STPs Treat Wastewater? For small scale commercial wastewater treatment applications, we preinstall all treatment modules (processes) inside a single ...
