## Moldova containerized silent generator

Does dingbo provide a container generator without soundproof function?

Dingbo provides standard container generator without soundproof function and container silent generator set. The feature as below: 1. Design and manufacture as per the international standard container, i.e.: 20 feet for 1000KVA or less and 40 feet for 1250KVA or above. 2.

Are all canopied generators silent?

Not all canopied generators are necessarily silent. Most still produce some level of perceivable noise. However, they don't produce enough to cause long-term damage to your ears. Exposure to noises over 85dB can start to do damage to the tiny hair cells in your inner ears, which will lead to hearing loss over time.

Are canopied generators a good choice?

Browse our range of brand new canopied or containerised silent generators for sale worldwide from 7 to 2792 kVA, and find the perfect enclosed generator for your project. When you need a heavy duty, stationary generator that's able to withstand the elements whilst producing minimal noise, then canopied generators might be just the option for you.

What is a silent container?

The silent container is made by high performance and anti-ageing, flame retarding, sound insulation and damping materials, with unique and elaborate design for air intake, outlet and noise reduction device. Optional parts: auto fuel feed pump (or control valve), cooling liquid feed pump, dual oil-water separator, auto parallel system, etc.
