# New Delhi New Energy Storage Cabinet Tender

Is India ready for large-scale energy storage?

India has emerged as one of the most active tendering markets for large-scale energy storage, with the government mandating standardized frameworks since 2022 and committing support for more than 43GWh of capacity through a Viability Gap Funding (VGF) scheme that covers up to 30% of capital expenditure.

How will ESS tenders affect India's power market?

of INR34,300 crore in 7 years. 29 January 2025. Standalone ESS tenders will dictate the evolution of a capacity-based power market in India alongside the energy-based one. In the near term, BESS and PHS will continue to dominate the ESS landscape in India, with storage duration determini

Why is NTPC launching a bid for battery energy storage systems?

India's largest power producer, NTPC Limited, has launched a major tender for battery energy storage systems (BESS), signaling a decisive step in the country's energy transition.

How many GWh of energy storage are available in India?

According to the India Energy Storage Alliance (IESA), cumulative tenders for 171GWh of storage had been issued by mid-2025, including 55GWh in the first half of this year alone. However, the gap between procurement announcements and operational assets remains wide: fewer than 220MWh of utility-scale BESS are currently online.
