
Phnom Penh solar Glass Greenhouse Supply

What is a greenhouse integrated PV (gipv) module?

Get in touch! Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.

What is a greenhouse solution?

Greenhouse Solutions Every greenhouse is designed using the highest quality materials and equipment, with customized environmental controls to suit your desired climate and growing goals. We care that our clients succeed in making the world a greener place.

How much does a greenhouse cost?

A greenhouse is a must for the keen gardener - it is ideal for sowing seeds, taking cuttings, growing tender plants, and overwintering young plants of crops. There are many options when choosing a greenhouse, with prices ranging from a few hundred pounds to several thousand pounds.
