TRC offers a comprehensive selection of 24 volt external desktop power supplies and wall plug-in adapters from leading manufacturers. Our UL-listed 24V DC power supplies are perfect for use in test and measurement devices, portable medical equipment, LED strip lighting, and more.

How to choose a portable power supply?

Now, there is a lot to take into consideration when you are looking for a portable power supply. The battery type and battery capacity will determine how long your supply will run and how much it can charge. You also have to take into account for what type of wattage the supply is rated, since this will help to determine what you can power with it.

How long do portable power supplies last?

The batteries that are used in portable power supplies are usually lithium-ion batteries. Even if these batteries are not used constantly, they will still age. They do not have a terribly long lifespan. In fact, even if you barely use your power supply, the battery will probably only last you two to three years at full capacity.

This power pack comes with a 192 Watt-hour super high capacity rechargeable lithium ion battery (CP190), an AC charger, a 24V ...
