
Price of 20-foot energy storage containers for US ports

Are 40' containers more expensive than 20' containers?

The prices of 40' containers aren't necessarily twice that of 20' containers. Hence, for clarity, it is crucial to mention the costs of the two container types separately. GoComet offers a free freight rate comparison tool that shows the lowest international shipping prices offered by vendors for a selected port pair.

How much does container shipping cost?

China-Europe rates are around \$3.70/kg, China-North America at \$5.30/kg, and Southeast Asia-North America at \$4.63/kg. Use the cost calculator and keep up to date with container shipping pricing trends to get a better idea of what your total landed costs will be. China - N. America weekly prices dropped 5% to \$5.30/kg.

How much does a 40ft container cost?

A 40ft standard container from China to the US West Coast costs \$3,500-\$6,000. Shipping to the East Coast ranges from \$4,500-\$7,500. These rates include base ocean freight and surcharges but not destination charges, customs clearance, or inland transportation. High-demand periods can push rates 30%-50% higher.

How do shipping container cost calculators work?

Online shipping container cost calculators like FreightWise help take the guesswork out of your logistics budget. Enter your origin and destination ports, container size, cargo type, and shipping date to get an accurate quote based on current market rates. These calculators also consider seasonal changes and apply appropriate surcharges.
