
Price of 40-foot energy storage containers for use on Indian islands

How much does a 20 foot container cost in India?

A 20-foot dry container in India typically costs INR1.6-INR2.0 lakh for new units and INR0.8-INR1.2 lakh for used units, depending on the condition, port, and supplier. Prices may vary slightly at major ports such as Nhava Sheva, Mundra, and Chennai due to local handling charges. 2. What is the price of a 40-foot container in India?

Where to buy a container in India?

Major ports such as Mumbai (Nhava Sheva), Chennai, and Mundra have higher availability and competitive prices. Inland depots (ICDs) such as Tughlakabad, Nagpur, or Kanpur may add INR10,000-INR25,000 per container for repositioning and handling. Containers sourced near ports are typically 10-15% cheaper than those purchased inland.

How much does A Costo container cost?

Just \$896 gets you a cargo-worthy 20-footer in the same area. The price of a 40ft Costo container ranges from \$1,288 in Nhava Sheva to \$1,507 in Mundra. Compared to brand-new containers, the cost difference is substantial, yet these used ones will also carry your items securely.

What are the different container types in India?

In India, the most common container types are 20-foot and 40-foot units, designed to suit different cargo requirements and trade volumes. The 20-foot (TEU) container is the industry standard for small to mid-sized shipments. It's compact, cost-efficient, and suitable for businesses shipping moderate cargo volumes.

Get updated 2025 shipping container prices in India. Compare 20 ft, 40 ft, high cube, and reefer costs, see new vs used price ranges, and learn the main factors that affect pricing.
