# Riga Energy Storage Equipment Procurement

Does Latvenergo offer battery energy storage systems?

Share. Latvenergo, a prominent public electricity utility in Latvia, has invited a tender for the procurement of Battery Energy Storage Systems (BESS).

When will battery energy storage systems be installed in Latvia?

The most recent update regarding BESS installations is that in Tume and Rezekne, Latvia's transmission system operator "Augstsprieguma tīkli" (AST) in June 2025 installed battery energy storage systems with a combined capacity of 80 MW and 160 MWh, which will undergo testing until October 2025.

How will Latvenergo improve the security of supply?

The innovations and infrastructure of Latvenergo will not only strengthen the security of supply but also the development of the Baltic region." BESS, or Battery Energy Storage System, is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

What is Latvia's recovery and Resilience Plan?

Latvia's Recovery and Resilience Plan plays a key role in the energy transition, supporting economic recovery through major investments in renewables like wind, solar, and biomass, as well as initiatives such as a 60 MW Battery Energy Storage System by 2026 and cross-border projects to synchronize with Continental Europe .

Latvenergo, a state-owned energy company based in Latvia, plans to expand its generation portfolio with the development of battery energy storage systems (BESS), ...

Riga Energy Agency (REA) is a municipal agency founded in 2007 for the purpose of planning, management, monitoring and coordination of energy- and climate- smart and sustainable ...

Latvia government tender for Construction of Battery Energy Storage System at Jsc Latvenergo Riga Hydro Power Plant, TOT Ref No: 110042336, Tender Ref No: 691455 ...

Comprehensive guide to sourcing energy storage systems in China covering suppliers, certification, cost control, logistics, and ...

Smart energy solutions company SIA Ignitis Latvija has launched the largest high-capacity electric vehicle charging hub in Latvia, which is part of the Ignitis ON network, with 10 charging points ...

In this Energy Storage News Webinar, CEA's experts Jeff Zwijack, Associate Director of Energy Storage, and Aaron Marks, take a deep dive into BESS procurement ...

Latvia government tender for Supply and Installation of Electric Energy Storage Battery System (BESS) Equipment, TOT Ref No: 86075821, Tender Ref No: 445322-2023, Deadline: 22nd Aug ...

Latvenergo, a state-owned energy company based in Latvia, plans to expand its generation portfolio with the development of ...

SunContainer Innovations - Summary: The Riga battery energy storage project represents a critical step in advancing renewable energy integration and grid stability in the Baltic region. ...

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with

---

significant investments ...

RIGA NATIONAL MUNICIPAL AGENCY &quot;RIGA ENERGY AGENCY&quot;. has floated a tender for Designing and Installation of Renewable Energy Production and Storage Solution, Purchase ...

Bid for tender to Construction of battery energy storage system at JSC Latvenergo Riga Hydro Power Plant Construction of battery energy storage system by Joint-stock company ...

Latvenergo, a prominent public electricity utility in Latvia, has invited a tender for the procurement of Battery Energy Storage Systems ...

A 84 MW of solar and 26 MW of energy storage portfolio will be installed in Latvia under the Niam-Evecon partnership. Discover the full project details here.

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

Riga Energy Agency Riga Energy Agency (REA) is a municipal agency founded in 2007 for the purpose of planning, management, monitoring and coordination of energy- and climate- smart ...
