# Santo Domingo solar Tile Power Generation Project

Does the Dominican Republic need a solar PV plant in Santo Domingo Este?

A central aim of the Renewable Energy Promotion Law of 2007 in the Dominican Republic has been to lessen the country's carbon footprint. Towards this goal is the construction of a 11.44 MWp solar PV plant in Santo Domingo Este.

How can solar power be used in Santo Domingo Este?

Towards this goal is the construction of a 11.44 MWp solar PV plant in Santo Domingo Este. The project involves setting up a 5.3 km transmission line to connect the solar plant to the Maranatha 69 kV substation and a 500m<sup>2</sup> solar hybrid greenhouse to demonstrate solar power's role in sustainable agriculture. The project is a collective effort.

What is Maranatha Santo Domingo Este solar PV Park?

The company has a stake of 100%. Maranatha Santo Domingo Este Solar PV Park is a ground-mounted solar project which is planned over 13.9 hectares. The project is expected to generate 15.9MWh electricity and supply enough clean energy to power 6,000 households. The project construction is expected to commence from 2021.

In summary, Santo Domingo Este is a pretty good location for solar energy generation, but you'll need to take into account local weather, ...
