
Solar Big C installs solar panels

Will trump's "Big Beautiful Bill" cut the residential solar credit?

(AP Photo/Allen G. Breed) President Donald Trump's "Big Beautiful Bill" takes aim at renewables broadly, including phasing out tax credits enjoyed by utility-scale solar and wind. But cutting the residential solar credit will happen sooner. Companies have announced more than \$20 billion in clean-energy investments in North Carolina in recent years.

Is China a powerhouse in solar panel manufacturing?

The rise of solar energy has transformed the global energy landscape, with China emerging as a powerhouse in solar panel manufacturing. As the largest producer of solar panels, Chinese companies play a crucial role in driving down costs and increasing accessibility to renewable energy.

What does the Big Beautiful Bill mean for commercial solar projects?

What the Big Beautiful Bill (BBB) means for commercial solar projects, closing windows of opportunity to eliminate the solar ITC.

Will planned solar projects lead to continued growth in China's solar capacity?

Planned solar capacity projects will likely lead to continued growth in China's solar capacity. More than 720 GW of solar capacity are in development: about 250 GW under construction, nearly 300 GW in pre-construction phases, and 177 GW of announced projects, according to the Global Solar Power Tracker compiled by Global Energy Monitor.
