# Solar Lights Outdoor Lights Sunlighting

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, offering beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to help improve home safety and security, light up patios and walking paths, or create a cozy glow around your lawn, garden, or pool.

Are solar-powered outdoor lights LED?

Almost all solar-powered outdoor lights are LEDs, with either integrated or replaceable bulbs. Solar lights are overwhelmingly powered by LEDs because they consume significantly less energy than traditional incandescent or fluorescent bulbs, allowing for smaller batteries and longer operational times.

How do I choose the best outdoor lighting?

For optimal lighting, consider using a mix of outdoor lights around your property, including ground lights, accent lights just above eye level, and fixtures installed on the roof or above your driveway. For walkways, pathway lights on stakes are a popular choice.

Are solar-powered outdoor lights eco-friendly?

Outdoor lights come in a variety of styles--some people like pathway lights, while others prefer string lights or twinkling garden lights--so you can create the perfect atmosphere for your space. Solar-powered outdoor lights are both an eco-friendly option and a solution to the hassles that are countless cords and frequent battery changes.
