# Solar circuit breaker factory in France

Why is Das solar launching a French factory?

Marking the 60th anniversary of diplomatic relations between China and France, the launch of DAS Solar's French factory is more than just an investment--it is a symbol of global cooperation and a model of synergy between Chinese innovation and European manufacturing.

Are SunPower solar panels made in France?

In its second decade of service, SunPower has consistently strived for innovation, delivering a diverse range of solar panels made in France. These include their signature Maxeon®; and Performance series panels, recognized for their top-tier efficiency and robust design.

What will das Solar do in France?

Looking ahead, DAS Solar plans to establish additional facilities for ingot and wafer production in France. Alongside partner companies, it also aims to localize production of key solar materials and components--including EVA/POE, cables, junction boxes, aluminum frames, and silver paste--forming a comprehensive "Made in France" solar supply chain.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.
