
Solar container outdoor power installation in Sri Lanka

Is India building a floating solar power plant in Sri Lanka?

India is to commission floating solar power plants in Sri Lanka, the Indian High Commission in Colombo said today. Prime Minister Narendra Modi inaugurated the world's largest and first of its kind renewable energy park comprising both wind and solar energy with a total capacity of 30 GW at Kutch in Gujarat on 15 December 2020.

Why should you choose J Lanka solar energy EPC service provider?

J Lanka the leading solar energy EPC service provider offers solar solutions designed to maximize the return on investment. With a highly skilled EPC team consisting of expertise in engineering and technology, each project generates greater value with different customer experience.

Why should you choose J Lanka as your solar partner?

Choosing J Lanka as your Solar partner will provide you the opportunity to work with a single point of contact with engineering, procurement and construction (EPC) coming through one company instead of several ensuring a successful long-term solar system.

How does solar system installation work?

System installation begins with installing solar panels on the roof including solar power optimizers and attaching panels. Our electrical experts will then connect the optimizers to the inverter and to your circuit breaker box which generates electricity to your home or business.
