
The latest energy storage project in Hamburg Germany

How does Germany support the development of energy storage facilities?

The Federal Ministry for Economic Affairs and Energy, responsible for energy policy in Germany on the federal level, supports the development of electricity storage facilities. Under the Energy Storage Funding Initiative launched in 2012, funding for the development of energy storage systems has been provided to around 250 projects.

Who is Hamburger Energiewerke?

Hamburger Energiewerke GmbH is a 100 percent municipal energy supplier. The company supplies more than 160,000 customers in Hamburg with green electricity and gas. Hamburger Energiewerke also operates one of the largest district heating networks in Germany, supplying over 525,000 residential units with city heat for heating and hot water.

Will MN Supercharge Germany's "Energiewende"?

MN is supercharging Germany's 'Energiewende' by bringing green energy to coal-heavy regions like Saxony and Lower Saxony, supporting the country's ambitious target of 80% renewable electricity by 2030.

Is octopus expanding its energy supply business in Germany?

In addition to expanding its generation portfolio, Octopus Energy Group is rapidly scaling its energy supply business in Germany, now supplying over 800,000 customers - a 100% increase compared to this time last year. Octopus is also expanding its pioneering 'Fan Club' model, which slashes energy bills for people living near wind farms.

The project involves the development of 130 MWh energy thermal storage system (ETES) plant located in Hamburg, Germany. The facility a thousand tons of volcanic stone that store energy.

In what they are calling a world's first, Siemens Gamesa Renewable Energy (SGRE) began operating its electric thermal energy ...

The 130MWh Electric Thermal Energy Storage (ETES) demonstration project was commissioned in Hamburg-Altenwerder, ...

WBS Power sells solar-plus-storage project, plans data centre; Alpiq secures 370MW Germany pipeline; Shell and EQT companies agree Germany BESS toll.

Hamburg, 4th February 2025 - Hamburg-based solar and storage specialist greentech was recently able to obtain the first planning decisions for two 20 MW battery storage systems ...

JET and Volfang launch a 300 kW fast-charging station with battery storage in Hamburg - ultra-fast charging without grid expansion, climate-friendly and cost-efficient.

Zurich-based BESS owner-operator BW ESS has another new partnership in Germany, joining Berlin-based energy storage developer ...

Danish renewables investor Copenhagen Infrastructure Partners (CIP) has announced the launch of "Project Anker", an 800MW green hydrogen facility in Germany, to be ...

Hamburg-Moorburg's Transition from Coal to Hydrogen The Moorburg project aims to replace one of Germany's most modern and efficient coal-fired power plants, which, until its shutdown ...

In a world first, Siemens Gamesa Renewable Energy (SGRE) has today begun operation of its electric thermal energy storage system (ETES). During the opening ceremony, ...

The 45 MW/90 MWh battery energy storage system (BESS) is part of Neoen's 1 GW portfolio of projects in Germany.

About the HGHH Project The Hamburg Green Hydrogen GmbH & Co. KG (HGHH) consists of two partners, Luxcara (74.9 percent) and Hamburger Energiewerke (25.1 percent), ...

The Hamburg-based solar and wind farm operator Blue Elephant Energy GmbH (BEE) began construction of its first battery storage facility with a capacity of around 12 MW in ...

EDF power solutions, a unit of French utility EDF Group, has obtained a contract for a 250-MW battery storage project in Germany in a tender carried out by Dortmund-based ...

Photo: Courtesy of Siemens Gamesa Renewable Energy, S.A., Spanish wind turbine-maker Siemens Gamesa has begun ...

Hamburg, 4th February 2025 - Hamburg-based solar and storage specialist greentech was recently able to obtain the first planning decisions for two ...
