
Uninterruptible Power Supply solar container in Myanmar

Who is Myanmar Power Group Company Limited (mpg)?

Myanmar Power Group Company Limited (MPG) is a Power Solution Provider, especially in Uninterruptible Power Supply (UPS) industry since November 2017. MPG was founded on basis of experienced engineers whose experience in UPS field is over decade to be able to support the best pre-sales and after-sales support to our valued customers.

Does Myanmar need solar power?

In conclusion, Myanmar's solar power initiative represents a critical step towards addressing the country's energy crisis. While the junta's efforts have been met with skepticism, the potential benefits of solar energy cannot be ignored.

Why is solar power a key part of Myanmar's energy strategy?

Despite these challenges, the solar power initiative remains a crucial part of Myanmar's energy strategy. The junta has announced plans to develop 51 more solar projects, with a total capacity of 3,000 megawatts. If successful, these projects could significantly reduce the country's reliance on fossil fuels and help stabilize the energy sector.

Why does Myanmar have a energy crisis?

Myanmar's energy crisis has been exacerbated by the military's mismanagement of the sector. Despite increasing the number of power plants, the junta struggles to meet the country's energy demands. Many of these plants rely on imported LNG, which is costly and unsustainable.

Myanmar saw the completion of a 50 kW hybrid solar project by Solis with Longlast batteries, boosting commercial backup and energy resilience.
