# Vietnam Ho Chi Minh Power Construction invests in energy storage power station project

Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.

What is Ami AC renewables doing in Vietnam?

Since 2017, the company has been developing and operating renewable energy projects in Vietnam, which include the 252 MW wind project in Quang Binh and the 80 MW solar plants in Khanh Hoa and Dak Lak. In October 2021, U.S. Mission Vietnam awarded AMI AC Renewables a grant of US\$2.9 million to spearhead and develop the project.

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) project in the 50 MWp Khanh Hoa Solar ...

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt ...

The Ho Chi Minh City Energy Storage Project demonstrates Vietnam's commitment to sustainable urbanization. By balancing cutting-edge technology with practical implementation ...

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate ...

Cu Chi Waste-to-Energy power station (Nhà máy điện rác Cu Chi, Nhà máy đốt rác phát điện ViệtStar) is a power station under construction in Ho Chi Minh City, ...

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) ...

The updated list covers 32 power projects, including 21 thermal power plants, nine hydropower projects, and two offshore wind developments. It also features seven LNG storage ...

A consortium has proposed an \$850 million investment to build a high-capacity battery plant for power storage in Ho Chi Minh City, aiming to boost Vietnam's energy tech and ...

A consortium of five international and Vietnamese companies has proposed investing in an energy storage battery plant in the Ho Chi Minh City-based Saigon High-Tech ...

---

Hoenergy energy storage solutions reached a new milestone as Hoenergy officially signed a strategic cooperation agreement and a 100 MWh energy storage deployment ...

Ho Chi Minh City, Vietnam - Peak Shaving and Valley Filling, Emergency Backup Power, May 2025 In this commercial project in Ho Chi Minh City, Vietnam, we deployed an ...

A consortium of five Vietnamese and international companies has proposed a major investment in an energy storage battery manufacturing facility in Ho Chi Minh City's Saigon ...
