# Where to get solar power generation in Sierra Leone

Does Sierra Leone have a solar project?

Sierra Leone launches the World Bank-backed RESPITE solar project, bringing clean energy to 28 underserved communities and boosting economic growth.

How will solar power help Sierra Leone achieve its energy goals?

Solar power, along with large-scale solar farms and hydroelectric projects, will be central to achieving this target. These efforts are part of Sierra Leone's broader strategy to diversify its energy mix and reduce its reliance on fossil fuels.

How has Sierra Leone improved electricity access?

Sierra Leone has taken a significant step toward improving electricity access with the launch of the Regional Emergency Solar Power Intervention Project (RESPITE).

How many solar mini-grid sites are there in Sierra Leone?

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW).

SOGREA marks a turning point for Sierra Leone's energy future. Designed to support the Government of Sierra Leone's drive towards financially sustainable electrification ...

Sierra Leone boosts renewable energy with new hydropower and solar projects, aiming to improve electricity access and support ...

Discover how Sierra Leone's RESPITE project, backed by the World Bank, is installing 28 solar power mini-grids to replace diesel generators and bring clean, reliable ...

Africell's push to become more sustainable and resilient in Sierra Leone has made significant progress with the activation of a solar farm in Freetown, the country's capital. The facility in ...

Lopi Power Ltd is a dynamic solar company headquartered in Sierra Leone, driving the transition to clean energy not only within Sierra Leone but also expanding our operations to serve ...

Freetown, Sierra Leone -- President Julius Maada Bio has officially launched the Salone Off-grid Renewable Energy Acceleration Initiative (SOGREA), a landmark EUR34 million ...

Sierra Leone boosts renewable energy with new hydropower and solar projects, aiming to improve electricity access and support sustainable development.

Discover how Sierra Leone's RESPITE project, backed by the World Bank, is installing 28 solar power mini-grids to replace diesel ...

In a significant step towards clean energy and improved electricity access, a consortium of Development Finance Institutions ...

At Salis, we specialize in turning sunlight into power, with a focus on solar energy generation and distribution. From the sun-drenched plains of Sierra Leone to the bustling metropolises of ...

---

Power Leone's first commissioned mini-grid was in Petifu Junction. Phase 3 Project In 2020 Power Leone signed an MOU with the Government of ...

Power Leone's first commissioned mini-grid was in Petifu Junction. Phase 3 Project In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate ...

In a significant step towards clean energy and improved electricity access, a consortium of Development Finance Institutions (DFIs) and renewable energy fund manager ...

Sierra Power (SL) Limited is a leading off-grid solar company committed to providing clean and reliable energy solutions in Sierra Leone. With a focus on sustainability and innovation, Sierra ...
