
Wholesale 16a circuit breaker in New-Zealand

What is a double pole circuit breaker?

Double Pole DIN mounted Circuit Breaker This 600VAC circuit breaker is rated at 16A for use in DC solar installations. The double pole is the important part here as the AS/NZ standard for electrical wiring states that both poles of PV should be able to be isolated.

Can a 600vac circuit breaker be used in DC solar installations?

This 600VAC circuit breaker is rated at 16A for use in DC solar installations. The double pole is the important part here as the AS/NZ standard for electrical wiring states that both poles of PV should be able to be isolated. This unit is best installed in our 2 Pole Din housings to ensure the terminals are insulated.

What is miniature circuit breaker (MCB)?

Miniature Circuit Breaker (MCB) is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by overload or short circuit. Its basic function is to detect a fault condition and interrupt current flow.
