## Wholesale main breaker switch in Uk

What are the different types of main switches?

Main switches are categorized according to their intended application (domestic,commercial,industrial),installation method (fuseboard,consumer unit,distribution board),and operational mechanism (switch,circuit breaker,molded case circuit breaker (MCCB)).

What is a main switch & how do I use them?

Our main switches help you turn off power safely. Use them in homes, shops, or industrial buildings. They work well in consumer units and distribution boards. We offer 2-pole, 3-pole, and 4-pole models to suit different systems. You can also choose enclosed main switches for wall-mounted use.

What does a switch do?

A switch is an electrical component that will either connect or disconnect the conducting path in an electrical circuit. The electrical current is either interrupted or diverted from one conductor to another. What Do We Supply? We supply an extensive range of switches for a variety of markets and applications. Why Choose E. Preston?

What BS EN standards affect main switch selection & installation?

Several key BS EN standards directly impact main switch selection and installation. BS EN 60898,for instance,comprehensively covers low-voltage switchgear and controlgear,specifying crucial safety features and performance criteria for circuit breakers,including main switches.

Our comprehensive portfolio offers a complete range of solutions and services for home, commercial and industrial applications.
